- CHEM 170 requires eligibility for MATH 115 in order to enroll.
- Refer to the Course Frequency Chart (<https://chem.ku.edu/course-frequency-chart/>) to see which semesters Chemistry courses are offered (Honors and upper division courses tend to only be offered once per academic year).
- Hour requirements (incl. 45 jr/sr hrs) are typically met through Core 34, degree, major, second area of study and/or elective hours. Students completing the BGS with a major must choose a secondary area of study. Individual degree mapping is done in partnership with your advisor.
- Students can elect to enroll in CHEM 636 Instrumental Methods of Analysis Laboratory or 3 hours of undergraduate research (CHEM 698 or CHEM 699) to fulfill the Capstone requirement. Students who elect to take CHEM 636 must also take the co-requisite course CHEM 635 Instrumental Methods of Analysis.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

*Courses with a * designate courses that are degree requirements but can also be taken to fulfill the KU Core 34 requirement. If another course is used to fulfill the Core 34 requirement, the course listed is still required as a degree requirement.

Notes:

* - This course is a Required major course and is also part of Core 34: Systemwide General Education. If this course is not taken to fulfill the Core 34:SGE requirement, it must be taken in place of elective hours.

** - This course is a Recommended Core 34: Systemwide General Education course. This specific course is not required but is recommended by the program's faculty.

*** - This course is a Required Core 34: Systemwide General Education course. This program is approved by the Kansas Board of Regents to require this specific Core 34: Systemwide General Education course. If a student did not take this course it must be taken in addition to other degree requirements.
